Founded in 1984, today Italfrutta di Manno has 60 employees and over an annual turnover of 50 million euros.

BENEFITS

AND PROPERTIES

Even if some exotic fruits are still unknown to the majority of consumers, the nutritional properties that these fruits bring are well known. Like the fresh fruit typical of our areas, exotic fruits are also rich in vitamins and mineral salts which are essential for a healthy and balanced diet. Dried fruit enjoys multiple virtues thanks to the presence of mono and polyunsaturated fats, arginine (essential amino acid which provides additional protection on blood flow regulation) and vitamin E which help the body protect itself from cardiovascular pathologies, reduce cholesterol and lower blood pressure.
